

CONTOUR NORTH CONSULTING · PROJECT DELIVERY ONE-SHEET

Larry Squire

Project delivery · Fractional general management · Co-founder

35 years

in construction: civil paving and
landscape construction

\$500K to \$4.5M

typical project size, delivered on
schedule and on budget

\$9M

largest project delivered

On a construction project, the schedule is the budget. Larry has spent 35 years protecting both.

PROJECT RECOVERY

Late, over budget, or off the rails.
Diagnose fast, reset the schedule,
rebuild trust with the owner.

OWNER'S REPRESENTATIVE

Your eyes on the contractor: progress
claims, change orders, quality, and
schedule, reported plainly.

CONTRACT ADMIN & RISK

Contract administration, claims, spec
compliance, and the paper trail that
protects you at the end.

ESTIMATING & TENDERS

Bid review, constructability checks,
and honest numbers before you
commit, not after.

FRACTIONAL GM

The whole business run well:
budgeting, business controls, safety
compliance, succession planning.

PM TRAINING

Your project managers, trained by
someone who has carried the
schedule and the budget himself.

REPRESENTATIVE WORK, PUBLIC AND PRIVATE SECTOR

Provincial transportation ministries · Regional districts and municipalities · General contractors and developers ·
Civil and landscape construction · Institutional and commercial projects

HOW HE WORKS

Plain reporting, weekly. Problems surfaced early, while they are still cheap. No jargon: if a sentence makes you
squint, he rewrites it. Available by the project, by the day, or as fractional capacity inside your team.

WHEN TO CALL

01

The project is slipping and
the site meetings have
gotten quiet.

02

You won work your team
hasn't delivered at this
size before.

03

Claims are piling up and
the owner relationship is
fraying.

04

You run the business but
nobody on your side
reads construction.

Any of those sound familiar? The first conversation is free, takes half an hour, and comes with no obligation.
